LA THUILE

AOSTA VALLEY

An almost mystical beauty welcomes the tourists that go beyond the tunnel that leads to La Thuile, in the North-Western part of the Aosta Valley.

A kind of beauty that doesn't need to be interpreted. Wide woods of pines and firs that embroider the whole valley, the gurgling of the stream that flows through the town and runs along some typically Alpine houses, the majestic and dazzling Rutor glacier that stands out in the sky, the peaks of the Mont-Blanc chain that can be seen from anywhere, the impalpable snow that covers the alleys of the town centre and creates a muffled silence, are the photograph that is fixed in the hearts of all those who visit La Thuile at least once in their life. A place where one has the chance of truly living his or her passion for the mountains and the snow in all their declinations and levels, from relax and pure fun to races.

It is the true protagonist of ski at international levels, since the slopes of the wide Espace San Bernardo ski resort will welcome the **FIS Ladies World Cup once again, on 29th February and 1st March 2020**. Here, tradition is still alive, your holiday will be made up of sport, time for yourself and regeneration.

#lathuile

EUROPEAN COMMUNITY OF SPORT 2021

The **Valdigne** with its 5 towns at the feet of Mont-Blanc - **Courmayeur, La Thuile, Morgex, Pré-Saint-Didier** and **La Salle** -, is now officially "**European Community of Sport 2021**". This title is given only to those communities that have some characteristics of excellence and share significant values when speaking about sport, wellness and quality of life. The title is given every year to two Italian towns by ACES Europe.

SKI AREA THE ÉLITE OF ALPINE SKIING

The wide, international Espace San Bernardo ski resort welcomes tourists from all over the world. Skiers can go up to 2,800 metres and enjoy 85 pistes and a total of 152 km. The ski slopes are of different levels of difficulty, from the easy ones to the most difficult. Among the technical ski slopes, we can cite the legendary n. 3 – Franco Berthod, a black slope with a maximum gradient of 73% which arrives right in the heart of the town: it is the steepest ski slope in Italy and, thus, a challenging track for experts which, as happened in 2016, will welcome the contests of the FIS Ladies World Cup on 29th February and 1st March 2020.

A unique skipass gives the chance to skiers to access to the 38 rapid and modern ski facilities of the Espace San Bernardo. Thanks to an hourly total capacity of 62,250 people, these structures allow skiers to ski no-stop, without queueing on the two sides of the resort: the Italian one, facing North and characterised by compact snow, and the French one, facing South and, thus, definitely sunnier.

This ski resort offers strong emotions. When one arrives up in the mountains the view is stunning, it is pure beauty. The glance sweeps free and captures wonderful images, on the one side the majestic Mont-Blanc chain with its legendary peaks, on the other side the superb Rutor glacier, with the two Vedettes standing in the middle, and then some other tops, such as the Gran Combin and, in the distance, the Matterhorn or the closer French Alps.

Thanks to its geographical position, the Espace San Bernardo can benefit of a particular microclimate, a condition that can be exploited all winter long. The perfect quality of the snow is guaranteed by the super job of the **pisteurs, the men tracking the slopes, and of the snowmobiles, in addition to the 400 snow cannons used to cover the slopes with artificial snow.**

ESPACE SAN BERNARDO SKI FACILITIES AND AREAS

In addition to the **38 modern and rapid ski facilities**, to the **85 pistes** and to the **152 km** of pure fun, the Espace San Bernardo also owns **2 slalom stadiums, 1 snowpark, 1 boarder cross piste, 2 fun cross areas, 1 secured freeride area, 1 snowkite area**, easily reachable through the ski facilities, 1 Artva (Avalanche beacon) zone to learn and analyse the safety procedures (both on the slopes and off-piste).

The Doppio Mono Cavo (DMC) cable car of the Funivie Piccolo San Bernardo brings more than 3,000 people per hour to Les Suches (2,200 m). It is the first European facility which owns a Ski Sauna, realised thanks to the cooperation with Pré-Saint Didier thermal baths (Qc Terme group). The **Ski Sauna** is a cabin covered with wood and equipped as a real sauna. During its way the structure allows its passengers to enjoy a stunning view over the La Thuile ski area while being cuddled by the delicate scents of the QC Terme world.

KIDS AND FAMILY

Lots of inflatables, a magic carpet and a slope to start skiing are part of the **Baby Snow Park** of La Thuile. Located in the town centre, close to the ski school and the ski facilities, the Baby Snow Park is very sunny and close to the square of the Funivie, where you can find both cafés and restaurants to get warmer and grab something to eat. Open every day from 10am to 4pm, the entrance and use of the facilities is free of charge.

SKI EXPERIENCE ESPACE SAN BERNARDO APP

The Espace San Bernardo App (available both for iOS and Android) offers a series of functions to get informed about the ski resort and ameliorate the ski experience in the international ski resort through the whole winter season.

Thanks to this APP one can buy the skipass, control the webcams, the snow forecast and the weather forecast, the conditions on the slopes live, but not only. The Espace San Bernardo App allows its users to benefit of fun functions, such as finding friends, monitor the performances on the skis through the GPS tracker and 'compete' with other skiers to obtain the leadership in the resort's grading: the position can be discovered thanks to the statistic analysis of the data.

Get the app

FIS WOMEN SKI WORLD CUP

La Thuile is getting ready for its encore: on Saturday 29th February and Sunday 1st March 2020 the FIS Women Ski World Cup will be back.

After the huge success of 2016, when the champions really liked the famous n. 3 – Franco Berthod ski slope and more than 20,000 people attended the event, after **four years the Alpine Skiing World Cup comes back to La Thuile. On Saturday 29th February and Sunday 1st March 2020** two races, one SuperG and one Combined, will take place on the dizzy walls and wide bends on the so-called ‘Italian Kitzbühel’. Dante Berthod, the national councillor of the Fisi (Italian Federation of Winter Sports) expresses his huge satisfaction: after four years the best female skiers will compete on the slope designed by his brother Franco together with Bernard Russi. Among them, there will be Federica Brignone, to whom La Thuile is home. The arrival of the races will be close to the town centre, in a location easily accessible on foot too.

The n. 3 - Franco Berthod ski slope

The first international homologation of the slope dates back to 4th January 1994. At the end of that month the first FIS downhill races were held, whereas between 16th and 18th January of the following year La Thuile hosted 2 downhill and two SuperG races belonging to the Alpine Skiing Europa Cup. In 1997 two more races (downhill and SuperG) were organised again.

After that, the n. 3 – Franco Berthod ski slope was the protagonist of some other national and international events: in **2011** it welcomed the Alpine Skiing Italian Cup Men, in **2012** the Finals of the Alpine Skiing Europa Cup Men (downhill and SuperG) and, finally, the 3 contests of the **FIS WOMEN SKI WORLD CUP** (2 downhill and 1 SuperG races), which were held on **19th, 20th and 21st February 2016, but also the races of the FIS TELEMARCK WORLD CUP in 2017 and 2019.**

LA GRANDE COURSE

VALLEE D'AOSTE ITALIE

TOUR DU RUTOR

EXTREME

26-27-28-29 | 03 | 2020

1995-2020

TOUR DU RUTOR

La Thuile will be part of the **Millet Tour du Rutor Extreme**, the thrilling ski-tourism competition which will take place from **26th to 29th March 2020**. This contest belongs to **La Grande Course** circuit which groups the most beautiful and prestigious races of the Alps and Pyrenees: the Adamello Ski Raid, the Patrouille des Glaciers, the Pierra Menta, the Altiytoy Ternua and the Trofeo Mezzalama contests. It is a race for the professionals of the mountains, where one can understand what ski-tourism truly means and in which the best athletes of the world will compete by using their sealskins.

This year, which correspond to the 20th edition, the Tour du Rutor presents a new formula. Four days of contest during which the **700 enrolled athletes** will climb over 3,000 metres of high during every lap. A competition with **9,500 metres of positive drop in total, 105 km of off-piste skiing, 60 km of climb, 45 km of descent, 6 km of aerial peaks** (always in total safety) and a **big news: the additional lap which will start right from La Thuile**.

This stage means a lot to La Thuile, since it underlines the strong relationship with the past of the contest, which was created in 1933 on the Rutor glacier, on the La Thuile side. The race then moved in the heart of the Valgrisenche, where it is actually run by the Corrado Gex Ski Club of Arvier.

It will be a truly exciting event which will promote the ethics of mountains and the true essence of the Alpine territory all around the world. As back in 1933, it is still an unmissable rendezvous for ski, sealskins, fresh powder and aerial peaks lovers.

www.tourdurutor.com

IMPROVE YOUR TECHNIQUE

LA THUILE SKI SCHOOL

The **La Thuile Ski School** has a seat in the town centre, in front of the ski facilities, and one in Les Suches (2,200 m). It owns a team composed by more than 80 ski instructors, all registered, among which there are also some **Federal trainers specialised** in the various disciplines, some instructors to prepare the future ski instructors and some Alpine guides to accompany off-piste lovers in their descents. Founded more than 50 years ago, **the school offers individual and collective lessons of Alpine and cross-country skiing, but also of snowboard, telemark, freeride, carving and snow blade.** The attention to safety, up-to-date didactic methods and great involvement are the basis of the ski instructors' activities. In fact, they constantly work to ameliorate the technique and refine the style, always keeping in mind the level of every participant, in order to transmit both the passion for winter sports and mountains.

KIDS AND FAMILY

Kids and young people can have fun while skiing thanks to the Tre9 Junior, a formula reserved to those who already have a discrete ability in skiing and who frequent La Thule during the whole winter season.

A non-competitive, annual ski course which schedules ski lessons during all the weekends of the winter season, intensive trainings during the Christmas and Carnival holidays and some outings.

Some didactic moments about signals, first-aid on the slopes, training with slalom poles and video analysis enrich the Tre9 proposal. At the end of the winter season all the participants of the Tre9 course take part to a contest among the Valdôtain clubs.

www.scuolascilathuile.it

NEVER ENDING EMOTIONS IN LA THUILE

Alpine skiing, snowkiting, snowboard, cross-country skiing, snowshoeing, ski-tourism, heliskiing: La Thuile offers a large number of opportunities to snow lovers to live a holiday under the sign of sport, in an extraordinary natural context.

SNOWKITING

Easily accessible thanks to the ski facilities, the snowkite area of La Thuile lies in the Little Saint Bernard area (2,188 m), at the border between Italy and France, surrounded by the extraordinary view over the Mont-Blanc chain, where the winds are at home. Here, a snowkite school is available to learn or improve the technique.

KIDS AND FAMILY

Snowkite lessons and chance of trying this discipline are waiting for adults and young people.

CROSS-COUNTRY SKIING

Three cross-country skiing rings are available in town, one of 1, one of 3 and one of 7 km. They are all accessible for free in the Arly area. These itineraries, that arrive in the woods that surround the valley, are part of a stunning panorama. Four other cross-country skiing rings (from 3 to 7.5 km) are available in the Arpy area, at 1,700 m, right under the Colle San Carlo.

KIDS AND FAMILY

Some of the cross-country skiing rings are easy and are suitable for kids too.

SKI-TOURISM

Various ski-tourism tracks are available in La Thuile. An unmissable one is the one that from Pont Serrand (1,609 m) leads to Combe Varin (2,620 m), a 4-hour tour which is not so difficult; or the one that from La Thuile goes to the Little Saint Bernard pass, 13 km with some tracks of apparently flat ground surrounded by high peaks and stunning views of the Mont-Blanc and the Aiguille de Trélatête. The return journey is among a lot of snow and in the middle of the woods.

In order to practice this activity in total safety the use of avalanche beacons, shovels and sounding lines, as well as the accompanying of an Alpine Guide, is highly recommended.

SNOWSHOEING

In La Thuile there are various tracks for snowshoeing that start the tiny hamlets of Pétosan, Les Granges, La Joux, Buic, Villaret and Pont Serrand. Some of them are easy and some others a bit more difficult and longer (for one to approximately four hours), but they are all relaxing and peaceful. The route that follows the ancient mine paths is rather interesting from an historical point of view too, since it leads to the entrance of some tunnels and to the miners' village. An experience that needs to be lived in order to discover the true history of the town.

KIDS AND FAMILY

Walks to the mines with an Alpine Guide and strolls under the stars.

www.zerovertigo.it - www.guidemontebianco.it

HELISKIING

A helicopter flight over the highest peaks of Europe and then a descent in fresh snow. The incredible heliskiing area of La Thuile, which goes from the Rutor (3,480m) to the Mont-Blanc, offers unique and unbelievable panoramas over the peaks of the Mont-Blanc chain, the Grand Combin and, in the distance, the Monte Rosa. The departure area to practice heliskiing lies in the Little Saint Bernard area, which is easily accessible thanks to the ski facilities of the Espace San Bernardo ski resort. The presence of an Alpine Guide is compulsory in order to practice this activity in total safety. Heliski lovers can enjoy this discipline from January to May, but they first have to have their abilities valued by an Alpine Guide and control the weather forecast.

The Aosta Valley is the only Italian region where the practice of heliskiing is permitted and regulated thanks to the institution of especially conceived tracks and areas.

BOULDERING

Up and Down Boulder Point La Thuile is an indoor boulder point for experts, lovers and beginners in the hamlet of Arly, inside the 'Piramide' sport centre. An equipped climbing wall with 40 blocks and 15 different circuits of various difficulty levels (grey, white, green, blue, yellow, red) realised with up-to-date materials and in total safety. The perfect spot to experience vertical emotions.

KIDS AND FAMILY

Up and Down organises courses to try the discipline, both for adults and kids, guaranteeing the presence by Alpine Guides and climbing experts.

Up and Down Boulder Point

Tél + 39 340 1035130 - + 39 340 6231187

A MOUNTAIN OF TASTE

By proposing some tasty incursions in the food and wine traditions and in the culture of the town, La Thuile makes its visitors discover some ancient flavours and culinary innovation. Wines of character, produced thanks to some high-altitude vineyards, and artisanal beers are perfect to be tasted with various specialities, such as Fontina, boudin, motzetta and some special dishes prepared in the various restaurants both in town and up on the slopes. It is the ideal way of discovering the culinary essence of these border areas.

FLAVOURS ON THE SLOPES

Whether it is to have a short break during your descents, to find your energy again, to stop for a while, to continue having fun or to conclude your ski day while sunbathing in one of the 15 chalet on the slopes, in La Thuile you will surely find a superlative option: après-skiing in La Thuile is special. These structures are all joinable by using the ski facilities and some of them can be reached by non-skiers too. They all offer cosy and comfy ambiances, together with succulent Valdôtain dishes. Some of these chalets are open at night too and they organise transfers by snowmobile under the light of the stars and the moon. A unique emotion conveyed after dinner too, especially to those who decide to come back to the town centre by skiing and by taking part to a torchlight procession.

CHOCOLATE IS AT HOME

La Thuile is Città del Cioccolato – a title given to the town by Chococlub in 2009. Here chocolate lovers can taste some true delicacies realised with 'the food of the Gods'. In the confectioner's shops of the town one can find various temptations, among which we can cite the **Tometta**, produced by Chocolat confectioner's shop. 350 grams of true pleasure, a perfect union between milk chocolate, gianduja chocolate of Piemonte IGP hazelnuts; the **Torta 1.441** by La Crémèrie, an extremely soft chocolate sponge cake filled with a light chocolate mousse; the famous **fondue au chocolat** served with fresh fruit.

A high-angle photograph of a man and a woman relaxing in a hot tub. The man, with a beard and dark hair, is smiling and looking towards the camera. The woman is seen from behind, with her hair tied up. The hot tub is filled with bubbling water, and the surrounding area is a wooden deck. The overall atmosphere is relaxing and luxurious.

SKI AT THE TOP AND TOTALLY RELAX

Snow, ski, the beauty of the mountains, relax for body and soul. This is the wise and hot mix proposed by **Funivie Piccolo San Bernardo** of La Thuile, realised together with **Re delle Alpi**, the brand new 4-star hotel which has recently been renewed and enlarged which lies on the ski slopes of the Espace San Bernardo ski resort.

This package proposes the concurring purchase of **skipass + wellness services of Il Re delle Alpi Wellness & Relax SPA** (slipper and bathrobe are included). The cost of a wellness afternoon (from 1.30pm to 4.30pm) is **45,00 €**. This special promotion is available only for those who buy a daily or multi-day skipass in La Thuile.

To benefit of this offer, ask for the SKI+WELLNESS option at the ticket office of the Funivie.

The hotel Re delle Alpi is completely surrounded by the white of the winter nature. The Wellness SPA offers some special sensory rituals, in a modern ambience, specially conceived to get harmony and balance back. Here waterbeds, cervical waterfalls and massages are brought into harmony with the sound of suffused music, delicate scents and stunning views.

www.redellealpi.com | www.lathuile.it

REGENERATING IN LA THUILE

La Thuile offers a wide selection of places to relax. First of all, the famous **Pré-Saint-Didier thermal baths** (about 8 km far from the town centre). Thanks to their warm water that gushes at the feet of Mont-Blanc, they are the perfect solution to regenerate both body and soul. A wellness itinerary with more than forty possible options in complete harmony with nature.

In the town of La Thuile one can be cuddled by the cosy ambience of the **Montana Lodge & SPA**, a wellness centre located in the homonym 5-star hotel which offer both to its clients and external guests all the elements to enjoy a true holistic experience thanks to its 6 rooms for treatments, the covered swimming-pool and the sauna.

Relax continues in the charming **Le M Club** of the Miramonti Hotel****, a wellness centre with swimming-pool, equipment for water aerobics and hydromassage. In addition, the guests of the structure can enjoy a sauna, a hammam, an emotional shower and a relax area to sip tasty herbal teas.

The wellness centre of the **Planibel TH Hotel****** offers a complete remise en forme in a warm and suffused ambience.

La Perla Spa of the Chateau Blanc Hotel*** is another nice wellness centre to live a complete healthy experience.

Hammam, sauna, hydromassage and fitness area are available for those who stay at the **Martinet Hotel****. A charming and modern SPA perfectly equipped for nice breaks.

Pretty and snug is the wellness centre of the **B&B Il Ciliegio**, located in the sunny hamlet of Buic. In order to cheer body and spirit, close to some hotels some Finnish saunas are available: they have been exclusively conceived for the guests of the respective structures. One lies outside the **Locanda Collomb*****, in a stunning position that overlooks the Rutor glacier; another is surrounded by the beauty of the wood that surrounds the **Chalet Eden hotel******, whereas in the hamlet of Thovex there are two B&Bs that own a Finnish sauna, **Le Thovex** and **Le Cloux**.

At 2,000 metres, on the n. 7 ski slope, lies the brand-new Wellness & Relax SPA of **Re delle Alpi hotel****** where the SPA experience is even more exciting thanks to the panoramic view.

ALPINE ELEGANCE AND WELCOME

A traditional Alpine elegance and a romantic and cosy ambience characterise the accommodation structures in La Thuile. They are ready to satisfy various types of holidays and expense, from a 5-star hotel to B&Bs, Chambres d'Hôtes, flats for rent, a camping and a camper site.

LTH SKI FREE

LTH SKI FREE is the brand-new promotion for the coming winter season. As stated by its name, LTH SKI FREE allows those who choose La Thuile for their holidays to benefit of important discounts when speaking about skipasses, on the basis of the chosen type of stay. The promotion is valid in the structures that take part to the initiative.

An unmissable chance to schedule a low-cost holiday in La Thuile, enjoy the warm welcome of valuable structures and ski on the famous, international slopes of the Espace San Bernardo, which in 2020 will host the female champions of the FIS WOMEN SKI WORLD CUP circuit competing in a SuperG and a Combined race.

THE LTH SKI FREE PROMOTION

For those who book at least **four nights in a 4 or 5-star hotels** during the lower season, the skipass will be free for the whole period of stay.

Thanks to this promotion those who book at least **four nights in 1 to 3-star hotels, B&Bs or chambres d'hôtes** will benefit of a 50% discount on the price of the skipass.

To get further information on the periods of lower season and on the structures taking part to the initiative:

S. BERNARD

ART AND CULTURE IN LA THUILE

La Thuile is also an interesting destination for art lovers. While having a stroll in the town centre (called Capoluogo), in via Debernard the church dedicated to San Nicola stands out over the surrounding roofs. Ancient place of worship and reference point for the local community, this church dates back to the XII century, when the first document certifying its existence was drawn up. Through this writing the bishop of Aosta, Bosone II, gave the church of San Nicola in La Thuile and the Hospice of the Little Saint Bernard to the convent of Saint Gilles in Verrès. This parish, which from 1466 on directly depended from the bishop of Aosta, underwent various sacks during the centuries, such as the fire set by the French troops, which completely destroyed the church in the year 1700. The actual church, rebuilt in 1796, owns a unique nave, with two lateral apses and the presbytery. Inside the church, some valuable painting by Ettore Mazzini and the wooden crucifix in the triumph arch, which was miraculously saved during the sack by the French troops.

The tiny hamlets of La Thuile own some nice chapels, which were built between the XVII and XIX centuries; some of them can be visited. Close to the church of San Nicola lies the **Chapel of San Rocco**, the patron saint against dangerous illnesses, built after the Plague of 1630. In the heart of the hamlet of Moulin the chapel of **Sant'Anna** (1667) stands out. The road that goes towards the Colle San Carlo leads to the hamlet of Thovex, where there is the **chapel of Clou, dedicated to San Lorenzo**, built in 1650, set on fire by the French troops in 1794 and then rebuilt.

The church of **Santa Lucia**, whose façade is embellished by a painting of Saint Défendent wearing war clothes, is in the hamlet of Buic and dates back to the beginning of the XIX century.

In the area of Entrèves, the wonderful chapel of **Santa Barbara** – founded in 1653 and restored in 2011 thanks to the intervention of the Alpini (the Italian Alpine troops) of La Thuile – still has its wooden altar and the statues of the Saint and of Saint Joseph.

The chapel of **Petite Golette** is a tiny treasure where a painting representing the Visitation dating back to the XVIII century is conserved inside the wooden altar of the same period.

Finally, the road towards the Little Saint Bernard leads to the hamlet of Pont Serrand, where there is the tiny chapel dating back to 1653 dedicated to **San Bernardo of Montjou and San Maurizio**. On its façade there is a painting representing San Bernardo, the patron saint of alpinists and wayfarers, who holds a chained dragon at bay.

MAISON MUSÉE

The **Casa Museo Berton** is part of the European projects "La culture du geste" and "Parcours culturel des portes du Petit-Saint-Bernard". Given by the Berton brothers to the municipality of La Thuile, after a long period in which the artistic patrimony was deeply analysed and the building was restored thanks to the intervention of the Town Council, the Casa Museo now is home to some pieces of handicraft, realised by local artists. There are also some pieces of furniture and some ancient objects collected by the Berton brothers, who loved La Thuile and were keen on collecting.

KIDS AND FAMILY

Guided visits and entertainment activities to allow kids to discover art.

HOW TO REACH LA THUILE

La Thuile is easily connected to the major Italian cities and, through the Mont-Blanc tunnel, to France too. From June to October the Little Saint Bernard pass is another way to reach the French territory whereas, in winter, the area is close to vehicular traffic because it is part of the ski resort.

BY CAR

La Thuile is less than one hour far from Chamonix (France), 1h30 from Geneva (Switzerland) by the Mont-Blanc tunnel, 1h40 from Turin, 2 hours from Milan and 3 hours from Genoa.

BY TRAIN

The closest train station is in Aosta, which is linked to La Thuile through a service of buses.

BY BUS

Buses from/to Milan, Turin, Courmayeur, Chamonix and all the towns of the Aosta Valley.
